OWNER’S MANUAL
Congratulations on purchasing your
Universal Eight Station PLUS Corner Gym

With this product in your home, you have everything you need to start your own workout program to tone and firm the muscle groups of your upper and lower body. This is vital for all of us, regardless of age, sex, or fitness level, and regardless of weather your primary goal is toning, health maintenance, or more energy for daily activities.

Proper exercise, including a low fat diet, strength training and aerobic exercise, tones and conditions the muscles we use everyday to stand, walk, lift, and turn. It can actually transform our body composition by reducing body fat and increasing the proportion of lean muscle in our bodies.

Be sure to read through this Owner’s Manual Carefully.
It is the authoritative source of information about your Universal Eight Station PLUS Corner Gym.

Universal Fitness™ assumes no responsibility for personal injury or property damage sustained by or through the use of this product.
